OUR **COMPANY** 

We take immense pride in maintaining and enhancing a family business that took root sixty years ago, when our grandfather delved into the world of natural stone quarrying. Through the years, we've not only sustained but also flourished his legacy. Today, we proudly stand as a reference point for quarry owners, a trusted manufacturer of high-quality marble, and an esteemed exporter of Iran's finest marble, travertine, onyx and limestone. With each shipment that leaves our facility, we export beauty to the world, and we honor our roots and embrace the future.

# **ACTIVITIES**

## We proudly own and operate twelve quarries, each meticulously selected for its unique offerings. Additionally, our quarry partnerships and exclusive priority access to other quarries ensure that we consistently source

Quarries

top-quality materials. **Factory** Our state-of-the-art factory transform raw stone into exquisite, finished products. From cutting to polishing

# and refining, precision and craftsmanship define our manufacturing process.

Stockyard Our strategically positioned stockyard serves as hubs for inventory management. Here, we curate an extensive collection of marble, travertine, onyx, and limestone — ready to meet diverse requirements.

# **Showrooms**

Our showrooms are more than mere display spaces; they are galleries where clients explore the beauty and versatility of our materials. Expert guidance awaits, ensuring informed choices. **Global Export** 

Beyond borders, we export our products — both blocks and slabs — to over thirty destinations worldwide. Our

commitment to quality and reliability resonates across continents.

Iran Light Silver Travertine has woven practical utility and artistic beauty across countless generations. Its legacy, spanning millennia, is a testament to its enduring significance.

This captivating natural stone has graced architectural wonders for centuries. Its delicate interplay of light grey and silver tones evokes an enduring sense of sophistication. Whether underfoot as flooring, adorning countertops, or enhancing backsplashes, this versatile material stands the test of time.
